ABOUT ME

My name is Vikas Anand. I am a self taught web developer. I am looking for a job of **Front end Developer (or similar)**

PROJECTS

Covid-info

DISCRIPTION

It is a static website which display covid19 related data to the client. It **fetches data from two external API** and display following information.

- Global Covid19 cases and deaths.
- Countries with most number of cases
- County wise Covid19 cases and deaths.
- Vaccination slot availability in different locations of India.

HIGHLIGHTS

- External API calling.
- Fully responsive.
- React application.

LINKS

- Code : <https://github.com/anandvikas/covidinfo.git>
- Site : <https://github.com/anandvikas/covidinfo.git>

Food-Kart

DISCRIPTION

It is a client side development of an e-commerce website of a restaurant. It gives information about various products of restaurant. Following are key features of this website.

- Most popular products (based on customer ratings)
- New products (based on id of product).

HIGHLIGHTS

- All the information (name, price, rating, category, etc.) of products is taken from a single array. Hence, if we want to add another product to the website , we just have to add one more element to the array and the website will get automatically updated.
- Fully responsive.
- React application.
